

React Native Mastery Roadmap

1. Core Prerequisites

- * JavaScript (ES6+)
- * React.js basics - Hooks, Components, Props, State

2. React Native Fundamentals

- * Core Components: View, Text, FlatList, etc.
- * Flexbox & Styling
- * Navigation basics

3. Advanced React Native

- * React Hooks: useEffect, useRef, useMemo
- * Redux or Zustand
- * Context API

4. API Integration

- * Axios / fetch
- * Async Storage
- * JWT Tokens
- * CRUD Operations

5. Navigation

- * react-navigation: Stack, Tabs, Drawer
- * Navigation props

React Native Mastery Roadmap

6. Useful Libraries

- * react-native-reanimated
- * react-native-vector-icons
- * react-native-maps
- * react-native-modal

7. Testing

- * Jest, React Native Testing Library
- * Manual device testing

8. Platform-Specific Code

- * Platform.OS
- * Bridging native modules

9. Performance Optimization

- * FlatList optimization
- * Memoization
- * Native Animations

10. Build & Deployment

- * Android .apk/.aab
- * iOS builds
- * App Store & Play Store

React Native Mastery Roadmap

11. Advanced Topics

- * Firebase (Auth, Firestore, Messaging)
- * Push Notifications
- * OTA Updates with CodePush

12. Tools

- * Expo, Metro, VSCode, ESLint, Android Studio, Xcode

Learning Timeline

Beginner -> Intermediate: 1-2 months

Intermediate -> Advanced: 3-6 months

Production Mastery: 6-12 months
